

Social Distancing Gate

Helps keep customers a safe distance apart while waiting in line.

Features & Benefits

- With the threat of COVID-19 amongst us and the need for social distancing measures - this is a low cost, instant solution that can be added to your queue.
- Instantly demarcates where customers need to stand ensuring a safe distance at all times.
- Gate arms can be pushed in either direction.
- Arms slowly return to closed position, eliminating any chance of injury.
- Fixes securely on the splines of a Tensabarrier® post.
- Quick and easy to install.
- Ideal for use with our Tensabarrier® retractable webbing posts & safe distance floor markers to easily inform customers of the safest distance to stand apart.
- Ideal for any environment that needs to adhere to social distancing measures.

Product Specification

- Robust PVC and glass filled nylon construction.
- When closed the 2 arms have a 10 mm gap ensuring they don't knock together.
- Can also be added as one arm within a queue.
